#### MEET YOUR PHLEBOTOMIST

## Hi, I'm *Ellie*.

Arely "Ellie" Arango Ramos, California CPT-1 certified (License #CPT-02356928) with an ER background. Fully insured and HIPAA compliant. I started Mariposa to bring calm, careful blood draws to your door, with the time and gentleness every patient deserves.

At your door you'll see me or Lila, my teammate and a certified phlebotomist. Want a specific one of us? Say so in the booking notes.

**Call or text (707) 280-3651**

## SERVICES & PRICING

Every draw we do, *with the price.*

Pick the one that matches your order. Each price covers the visit, the draw, labeling, and delivery to your lab or the carrier. **See the full price list.**

### Standard home draw

\$200

Routine labs from your doctor's order, drawn at home, delivered to your lab the same day.

#### **What's included**

### Therapeutic phlebotomy

\$250

Unit draws for hemochromatosis, polycythemia, and other standing orders. We follow your provider's order for volume and frequency.

#### **Therapeutic phlebotomy at home**

### Galleri test draw

\$175

We draw into your Galleri kit, pack it the way the instructions require, and drop it at the carrier the same day. Kit handling included.

#### **How the Galleri draw works**

### Pediatric & autism-informed

\$200–250

+\$25 autism-informed

A calm draw in your living room, at your child's pace. Autism-informed care adds a planning call and extra time.

#### **What an autism-informed draw looks like**

### Athlete performance packages

\$450 / \$550 / \$700

Three tiers of fasted, early-morning performance bloodwork at home. The panel depth sets the tier.

#### **Compare the three tiers**

### Workplace, clinics & care facilities

Group pricing

On-site draws for teams, standing orders for practices, and scheduled rounds for assisted living. Email [mariposaphlebotomymobile@gmail.com](mailto:mariposaphlebotomymobile@gmail.com).

#### **For clinics and facilities**

## HOW IT WORKS

# How a mobile blood draw *works*.

1

### Book online

Pick a time on our booking page, or call or text ([707](tel:7072803651)) [280-3651](tel:2803651). Same-day and next-day slots are often open.

2

### We come to you

A certified phlebotomist arrives at your home, workplace, or care facility with everything needed for a calm, gentle draw.

3

### Results go to your lab

We label and deliver your sample to Quest, LabCorp, or your hospital lab the same day. Bring the order your provider gave you (printed, in MyChart, or faxed to us) and results come back through your provider or lab portal as usual.

WHAT CLIENTS SAY

# Trusted by Bay Area *families*.

★★★★★ 5.0 from 54 Google reviews

“Ellie was wonderful! She was prompt and efficient, and it was really easy to book an appointment through her website.”

**Kayla Kolhede**

“Lila has drawn my blood twice. Professional, painless, pleasant and a pleasure to work with!”

**Curtis Mewbourne**

“Great experience! Lila was patient and professional. Super convenient service. I highly recommend!”

**Justin Moreno**

“Amazing, very reliable, very friendly and wonderful with kids. I will never take my kid to a lab again.”

Superbills provided for out-of-network insurance reimbursement. We do not bill insurance or Medicare directly. **Full pricing, policies, and what's included.**

How much does a mobile blood draw cost?

What areas do you serve?

A standard home draw is \$200. Pediatric draws are \$200 to \$250, and autism-informed care adds \$25. Therapeutic phlebotomy is \$250 per unit draw, a Galleri test draw is \$175 with kit handling, and athlete performance packages are \$450, \$550, or \$700. Every price is listed before you book, and each one covers the visit, the draw, labeling, and delivery to your lab. **See the full price list.**

---

Do you take insurance or Medicare? What is a superbill?

We do not bill insurance or Medicare directly. You pay when you book, and we give you a superbill: an itemized receipt with the procedure codes your insurer needs to consider out-of-network reimbursement. Many PPO plans reimburse part of the visit.

Medicare does not reimburse our visit fee. The lab still bills Medicare for the tests themselves as usual.

---

Which labs do you deliver to, and what do I need ready?

We deliver to Quest, LabCorp, and hospital labs across our service area. Have your provider's lab order ready: a printed copy, the order in MyChart or your patient portal, or an order faxed to us by your provider's office. If you are unsure whether your lab is covered, call or text **(707) 280-3651** before you book.

---

Do you offer therapeutic phlebotomy?

Yes. We do unit draws at home for hemochromatosis, polycythemia vera, and other conditions where your provider orders blood removal. Bring the order (standing orders are welcome) and we schedule the

Sonoma, Marin, Napa, Solano, and Sacramento counties, plus the greater San Francisco Bay Area, including Alameda, Contra Costa, and San Mateo.

---

Can I book for a parent, child, or family member?

Yes. Book under your name and put the patient's name, address, and any access notes (gate code, which door, mobility needs) in the booking notes. Many of our clients book for a homebound parent or a senior who can no longer get to a lab. The patient, or their legal representative, signs consent at the visit.

---

Do you do pediatric or autism-informed draws?

Yes. Pediatric draws are \$200 to \$250 and happen at home, at your child's pace, with a parent right there. Autism-informed care (+\$25) adds a pre-visit planning call and extra appointment time, and we never hold a child down: if your child can't go ahead, we stop and reschedule. **Read what an autism-informed draw looks like.**

---

Can you draw for a Galleri or other mail-in kit?

Yes. Have the kit at home when we arrive. We draw into the kit's tubes, follow the kit's handling steps (spin, cold pack, or room temperature), and drop it at FedEx or UPS the same day. Galleri draws are \$175 with kit

series. \$250 per draw. [Therapeutic phlebotomy at home.](#)

handling included. [How the Galleri draw works.](#)

What is your cancellation policy?

Reschedule or cancel free of charge up to 24 hours before your appointment. Inside 24 hours, or if we arrive and the draw can't go ahead, a \$50 visit fee applies and the rest is refunded. If we have to cancel, you are never charged. [Full terms and cancellation policy.](#)

Are you certified and HIPAA compliant?

Yes. Our lead phlebotomist is California CPT-1 certified with an ER background, and Mariposa is fully insured and HIPAA compliant. [Read our privacy policy and notice of privacy practices.](#)

How do I prepare for my draw?

Follow any fasting instructions from your provider, drink water beforehand, and have your lab order ready.

For a fasting draw, book our first slot at 8am, or call about an earlier start. For school-age kids, Saturday mornings (8 to 11am) are the easiest fit, since weekday visits end at 3pm.

How do I book an appointment?

Book on our scheduling page at [mariposamobilephlebotomy.as.me](https://mariposamobilephlebotomy.as.me) [\(https://mariposamobilephlebotomy.as.me\)](#) or call or text [\(707\) 280-3651](tel:7072803651). Same-day and next-day appointments are often available.
